Dear

With an increasing number of our younger members now progressing on to studies away from home at University or College, Bluewave have decided that we should recognise their contribution to the club and put in place a scheme to encourage continued training.

As someone who is either already at University or College, or will be going away this year, I would like to take the opportunity to invite you to apply for an educational bursary. This is open to all members of the club who

- are studying away from home and therefore will only be training with us during the holidays, and
- have been in membership of the club for at least one year prior to starting their studies.

The bursary will enable you to continue your training with the club for a single payment of £30/year payable at the start of each academic year. This payment will cover

- All normal classes with the club during the holiday periods
- Annual membership of British Taekwondo
- Personal Taekwondo insurance

However, the payment will not cover any seminars, competitions or grading fees.

If you would like to be considered for a bursary, and we hope you do, then please complete the short form below and return to me. All bursaries will be reviewed annually by the Instructors.

On behalf of Bluewave I would like to wish you every success with your studies and I hope to see you back training with us during the holidays.

Lynne Firth
